

3DCERAM

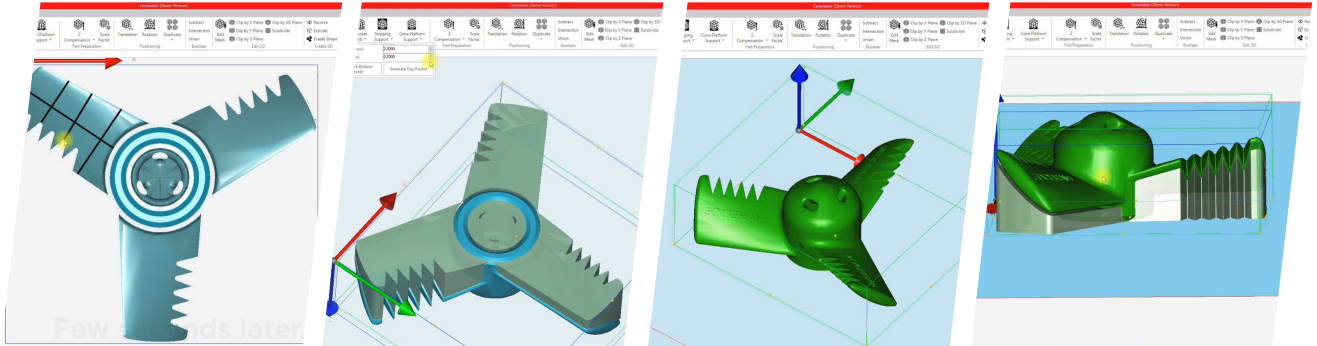

BUILD-IT **MAKE IT** **SIMPLY TO PRINT**

BUILD-IT IS AN INTEGRATED PLUG-IN,
DEVELOPED BY 3DCERAM,
TO EDIT YOUR STL FILES
AND MAKE THE CAD FILES
PREPARATION MUCH EASIER.

THE **PLUG-IN** MADE IN 3DCERAM, THAT SAVES YOUR TIME AND LEADS YOU TO **SUCCESS**

BUILD-IT, the benefits are:

Time saving :

- *Repair* your .stl files and generates supports faster
- *Scale* and parts *positioning*
- *Optimize* the preparation time, as working on the next production while the printer is already running

The Build-It features can be done with few clics, on a reduce time.

Simplifying the process :

- *All in one* software to work the printing file, to prepare the run and to print the parts
- *User-friendly* interface
- *Multi-users* system to work remotely on another screen

Keep focused on the final part design and
save time on the requirements of the printing process.

Details and contact on www.3dceram.com

An *intuitive interface* which allows any operator
to set the design file for printing.
